o tarkové designative e

On our arrival at Portland, a large number of pag ingers rushed on board and filled every bertli, nook and corner-quite equal, indeed, to the dense companies on board the hoats in 1835. Many prompted to the journey undoubtedly, for the purpose of visiting the Mechanics Fair, now open in Boston. The late hour at which we started, 12 at night, did not admit of our reaching Roston until about 11 o'clock of the forencon of Tuesday. On our arrival we stopped at the American House, where we are now writing. This is certainly a well conditioned, and it appears to be a well conducted established ment. At the dinner table, we found the bill of fare as various as the most-fastidious could desire. French, English, and other cookeries were done up after the most effectual and thorough mode of waking dyspeptic, gouty and phlethoric patients; and the way the young meneat them-A lves into old age, and the old men thema lves for my whereaboute; now for matters of more

The great object of attraction here, and that, which, more than any other thing, the occasion of my being here is, the Fair of the Mausachuautts Charitable Mechanic Association, now open in Quincy Hall. Fairs of various kinds for the exhibition or sale, and frequently for both, of mapufacture, and productions, cattle, &c. have been held in many counties, for centuries past. In the United States, they have been common. But the last lew years has witnessed a great improvement in the extent, brilliancy and usefulness of them; and to the Mechanic Association of Boston, are we indebted for the greatest advances and the most brilliant achievement in relation to them. The inventive genius, the extensive manufacturer, and the solitary medianic, with the varied talent of apprentises, here meet opon the level" the partion redepartment in which they each and all exceld is brought immediately before the public eye, and demands a decision of public judgment. Mind comes in contact with congenial mind-new sparks are struck new ideas arise, and new combinations of the powers of nature and en dearing friendship and greater progress and perfection of the arts, are among the consequences. By the presentation to the public of the condens'd essence of the skill and ability of the productive industry of the country, which these exhibitions give, a greater respect and regard for this skill and industry is awakened in the public mind the eye of beauty dilates, the scornful countenance lights up with admiration and wonder; at the extent, perfection and importance. of the work of man. The mechanic finds himself in a new position before the world. He feels the sympathy and receives the commenuations and smiles of all his heart becomes touched with a new emotion - his mind awakened by new impulses, and he feels ready and willing to move onward, confident that he too has a mission among mankind; and though toil and obstacles stand in the way, yet he can endure and overcome all, for within himself, if no where el. , he finds a reward. There is then, a moral 19th, announces ten deaths, eight by fever. obwer in such exhibitious, and where I can find that, I am always sure to find something of valre and of service to ...an.

Occasional exhibitions of this kind not only affect the community by awakening greater respect for labor and the humble laborer, but they supply that relexation to the mind that relief to care so often sought in hurtful amusethents. In connection with the essociated efforts of the old U. S. Bank as a depository, which for rational antertain, ant by lectures, debates, and such exceense as are had before Mechanic A printions, Lyecuins, and the like, they are fast working the destruction of theatrical and such like performances. It was remarked by the former --- anger of the Tremont theatre, whe, by the by, had to fail and quit, that the Mechanic, Horticultural and other Fairs, together with the many exerciations for intellectual improvement, had nearly ruined the business of theatres, by occupying the attention of the connaunity. So be it. "Perish" say we, all "commerce" in evil amusement, and "perish" all fal-v "credit" which they have enjoyed. The theatre may have had, and undoubtedly did have its place, but the progre-ing steps of humanity, have nearly, and will certainly willgrow the necessity for, and the influences of theatrical performances.

With such views, what wonder that we feel asympathy to such exhibitions? What wonder that we entertain a deep desire that their benefits may be extended, and larger numbers of me-Annier man the good fruit? Our hearts west ardent wish is, that the managers of this fair the Autoriation under whose direction it was commenced the many contributors who have so nobly and generously exerted themselves may reap that rich reward which is so amply de fie. This, the file day of the Exhibition. has indeed been brilliant and imposing. Not lear, probabit, that seems thousand persons have visited the rooms and we would wish, were the ining he would wish practicable, that every Blechanie and every apprentice in Bangar, by, overy with affi women there, could hi k is to withe it. As a general rumark, we sonclose by saying, that the pre-gut exhibition in point of negtness, appropriated as and beauty - A = mule h they have two years affice. as de monidage son exceeds in brilliagay the A ot gi _ tringe of dawn

In Pedsacola, with a population of five thousand, there has been but six deaths for the hat six months. The Locytoons of Michigan have nowquated Elon Farnamerth for Governor, and Thomas Fitzgerald for Lieutenant Governor. During the two days preceeding the 10th inst eight deaths occurred at Natches four were of the yellow lever. The conservatives of Ulster County, New York, al a recent convention, declared their preference for General Scott for the Presidency. The number of advertisements in the New York Courier and Enquirer for the year ending September 14, 1507, was one hundred and forty three thousand four hundred and twenty eight, averaging four hundred and sixty eight per days. An exchange paper says, that of all kinds of lying, the most symmon is that of lying atted late in the morning- except among locoloco editors, and they lie standing as well as lying And many of their readers stord lying remarkably well, or they would have long since become good whigs. The Louisiania Chronicle in speaking of the Superintendent of the New Orleans Mint says, he formerly resided in our parish, and is, by his own unassisted exertions, the father of a numerous and accomplished family of children. [From the Providence Journal] THE PRESIDENCY.

The Jos Jocos are much mistaken, if they out that the fact of their being a difference of pinion niponget the Whige as to the want eligibie canculate for the Bresidency will land to distruct and divide the Wing party True, the Whigs differ upon this point, but they are united upon another of far greater moment, that their attachment to men should always give way to their devotion to principles. Neither of the distinguished men whose names have been brought forward for the Presidency, would hestate one moment to lay his claims upon the altur ter his country's good; and the man who shall be decided upon as the most eligible with be the rallying point, around which the others will gather with their friends, their influence, and their exections.

The man who shall receive the nomination of the Harrisburg Convention, will receive the united vote of the Whire party... Who that man shall be, most be left to the wisdom, the har mony, and the mufual concession of the Convention. Our own choice our readers well know. The choice of the Whigs of this State has been well declared. That Henry Clay would receive the largest vote given in this state for many years, no one, conversant with our polities, can for a moment doubt, but if such be not the case in other States, the Whigs of Rhode Island are prepared to support with equal activity, and with equal zeul, any other good man

whom the majority shall decide upon Several circumstances have led us to the belief, that it is the design of this distinguished man, at no distant day, to withdraw his name as a candidate for that office for which his abilities, his patriotiem, and his services entitled him more than any other man; but this much we know, not less from his character and his reputation than from his own declaration, that his name, which has ever been a tower of strength to the Whigs, shoft never be made a cause for division. Generous, magnanimous, noble, he will never allow his triends to jeopard the great cause, by their attachment to himself.

In the event of the withdrawal of our favorite cadidate, the indications are strong that public opinion would settle upon Gen. Winfield Scatt, to Virginia. a man who has long possessed the corrfidence of all parties, and whose services in the field, as well as in the late events, which, at one time, threatened so much danger, entitle him to any expression of public gratifude

SOBER SECOND THOUGHTS.

The Newark Daily Advertiser publishes a part of the testimony taken by order of the Legisla. ture of New Jersey, respecting the votes given at Millville in the last Congressional election. From this testimony, given by the voters themselves, it appears that many of the gentlemen who form the Millville democratic inspirity, are too recently from Germany to have known any thing as yet, of their cousin and admirer, Mr Van Buren, and are uncertain whether General Washington or General Jackson now administers the government. Plic testimonies of the voters are all of the same general character with the following :

Daniel Gerret aworn. Where were you born?

A. I was born in Germany, and came to the United States seven years ago last month; 1 have not been naturalized, I voted at the last election in Millville township i was then at work at Scheter's factory. I can't tell what ticket I -voted, Ben Jory gave me the ticket, it was rolled The Charleston papers of Saturday say that up, and i put it in my pocket, at the poll I took the letters from Augusta are of the most gloomy it out. I cannot read, Ben Jory gave me the ticket at night when I was done blowing, I am d dryer at the glass factory. I do not work under Jory's direction, I have never heard Jory tell any of the workmen which ticket to vote, John Frank went to the poll with me when I voted, I cannot tell what the ticket was called, I did not show it to John Frank, I did not know what men. I was voting for, Jory gave me the ticket and said I must vote, and that is the reason I went; John Frank and Mitchell Schaum went to the poll with me. Frank mid nothing about the ticket; he knew I was going to vote, I went up about 5 o'clock to the store, I never heard of such a thing as a 'democratic' ticket, I never heard of such a man as Jackson, nor of Martin Van Buren, nor of Israel Stratton, or of such a man as Nathaniel Foster, 1 did rot own any house or land when I voted. > Singular. The New Orleans Bee tells a curious story of a negro in New Orleans, a wouran and a slave, in whom the process of absorption of the coloring matter which tinges the skin of the African black, has been going on for several years. The removal of the coloring matter is however imperfect, and irregular; it takes place in patches giving to portions of her arms and legan pure white appearance, which contrast unnaturally and disagreeably with the jet ty hue of the surrounding surface. She will never become entirely white but the case is curious as being illustrative of the mode in which nature performs this singular freak viz: by absorption of the black pigment from which the skin of the negro derives its color.

The Camounile Preparation by Dr. Wm. Evens is underlably entitled to this curinfide distinction for whist no medical authority in existence condemns it, every medical practitioner that is acquainted with it, freely acknowledgesurs pre-emingut virtues and that the latter should do so in opposition to their personal interests, must be attributed either to their andor and love of truth, or to their unwillinguess to By in the face of all observation, and the testimuny of thousands.

tr. W. Evans does not precend that his Camounite Topic Pills will care all diseases. He trankly and conscientionally admits that they will not. He lays no claim to the discovery of the "Philosopher's Scone," and wishes notody to believe that he sells the "Effeir of Life," but he does say, and he does believe, and he can prove, that in debility guid in paired constitution; in Nervous diseases of all kinds; in weakness of the diseasive organs, in incipient consumptions, whether of the lings or the liver; in the dreadful debility occasioned by the use of purgatives; in palsy, theumatism, (more especially) in the sickness incident to mothers, and to females of relaxed norves gin every case of delitium tremens, or that disease which is brought on by inemperance, in the wrotched horrors of hustvand nind which agerne from occasional inebrity; toss complexion, caused by the had state of the fluids in all these cases, and in others mentioned in the bills of directions given with his medicines, HE DORS say, that the Camomile Tonic Pills, interchanged occasionally with his Agericat Family Pills, (the best known) which are sold with them, will effect minediate relief; and it used but for a fair period of trial a perfect cure. This much is placed beyond a doubt by daily testimonics which would be given on outh, and for this much Dr. W. Fivans can conscient tionally request confidence. He therefore need only and that his Camountle Tonic Pills, together with his excellent Pannty Aperient Pills, can be obtained Wholesale or retail at No. 7, Division street near Chatham square, N. York, and his authorized agents in lown and country.

Other and more conclusive demonstrations of the efficacy of Qr. Evans' Camomile, Preparation and Aperient Medicines, are submitted by the following emportant and extraordinary cures effected by their highly modicinal qualities; all of which may be seen at Dr. Wor. Evans' Medical Office, No. 7, Division street. One or two of these he herewith re? spectfully gives to a discriminating public.

Dr. Wm. Evans Shr, be pleased to receive the thanks of one who has been a great sufferer for several years, for the great benefits she has received from the virtues of your inestimable Camomile Pills. She has sudered with pain and distress in the head, a lightly server any be kept good for any length of time. a lightness across the head, a lightness across the stomach, shortness of breath, and palpitation of the heart; exercise would almost overcome her; but since using your Camomile Tome Pills, her complaints are removed—she is able to exercise without atigue and she is happy to say, can emply life comfortably again. Newark, July 18, 1836 - Dear Sir, for four years

I have been so unwell that I was muchle to wittend to my busines, and for the last 4 or 5 months was confined many room, my complaints were rheumatism, pains in my stomach, indigestion and loss ut appetite, with continued pain and dizziness in my head; I used different kinds of medicines without effect; until I commenced taking your invaluable Camomile and Aperical Pills; their beneficial offects upon me astonish all who knew my simulion. In a few days I shall be at your office conspressing grainude to you in person. In the mean time I and scribe myself your most of teers it. - B. S. JARVIS, 13 Centre st.

Dr. Wm. Evans. Extract of a letter from Jonas Snyder, Postmaster, Knoxville, Pa. to Dr. Wm. Evans. Among several cases "an elderly lady who had been 25 yrs. afflicted with nervous hypochondria, debility &c. that for the last 3 years she constantly received me-. dical aid from a respectable physician, but the pres-sure and pain on her beart and breast, and especial ly in her left side, remained immovable, attended at long intervals with weakness in her head and on her laud, Joshua Durgin and Artemas Carter, EEP constantly for sale, a large and general mind Leeping her discouraged to undertake any thing. In May she commenced using Dr W Evans' Camomile and Family Aperient Pills, according to the direction accompanying them. A reaction took place 4 the pains and pressure in her body was removed, her mind became clear and strong; her spiriss perfectly good, and up to this time is an all respects restored to health, which for the last 10 years she has not enjoyed." JONAS SNYDER. On Low Spiners. Low spirits is a certain state of the mind, secon painted by ladige thon, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined Ancient writers supposed this disease to be confined to those particular regions of the abdomen technially called hypochondria, which are situated on the right or left side of that cavity, whence comes the name hyporhondriasis.

Symptoms. The common corporeal symptoms are flatulency in the stomach or howels, acrid cruclations, castiveness, sparmodic pains, giddiness limness of sight, palpitations, and often an otter inability of fixing the attention upon any subject of importance, or engaging in any thing that demands vigor or courage. Also languidness; the mind becomes irritable, thoughtful, desponding, melancholy and dejacted, accompanied with a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overa below the ludgment exhibits a infinite tion and overwhelm the judgment, exhibitan infinite diversity: The wisest and best of men are as open

to this affliction as the weakest. CAUSES. A sedentary life of any kind, especial ly severe study, protracted to a late hour in the night, and rarely relieved by social intercourse, or exercise, a dissolute habit, great/ exeess in eating and drinking, the immoderate use of mercury, vio ent-purgatives, the suppression of some habitual ischarge, or long continued eruption; relexation or debility of one or more impostant organs with in abdomen, is frequent cause.
TREATMENT The principal objects of treatment

are, to remove judigestion, to strengthen, the nody and to eliven the spirits, which may be promoted by exercise early hours, regular meals and picasant conversation. The howels (if costive) being core-fully regulated by the occasional use of a mild aperiem. We know nothing better calculated to obtain this end, then Dr. W. Evans' Aperiont Pills her ing mild and cortain in their operation. The bow-Pills, (which are tonic, anondyne, & anti-spasmodic) are an infallible remedy. " without dispute have proved a great blessing to the numerous public. Some physicians have recommeded a free fise of mercury but it should not be resented to; as in many cases it will greatly aggra late symptoms.

HARRISON'S PERISTALTIC 1.OZENGES;

MIS medicine is not put turn as a universal nestrum coloutated to sure all the diseases meideal tobumuhily, but rather as a means of preventing them. It may safely be stated that time souths of the most serious maladics arise from an unicalthy action of the stomach and howels or liver, inducing as a natural consequence, indigestion and its results; क्यों के est held at he, aridity of the stomach, heart (un. flatulency, naustra lowness of spirits jaundice and a wiele catalogue of other equiplaints, which may be entirely removed by a time!) and pessevering use of this remedy.

The most cogent objection to Apericate in general is, that combaining some diastic purgative, they teave, after their operation has ceased, a torpidaty of the stomack and owels, producing consequences which their administration was intended to correct Such effects will not follow the use of these Lo.

TO FEMALES IN DELICATE HEALTH. The Peristaltic Lozenges are strongly recommended to the notice of every 1 ady, having obtained the sanction and approbation of several animent gentlemen of the Medical Profession, as a sate and variable, medicine in removing obstrucof appetite, langor, melancholy, pains in the head, sons and relieving all other inconveniences to himbs, or side; in corrupt sallow, and uncomely which the female frame is liable, especially those which arise at an early period of life, from want of exercise and general debility of the system. They create an appente, correct indigestion, remove giddiness and nervous head ache, and are entineatly useful in windy disorders, pears in the stomach, shortness of breath and palpitation of the, heart. Being perfectly innocent, they can betaken at any time and under any circumstances. The most delicate female, when an aperient is required, may have recourse to them, and they will not as a preventive against those pervous and hysterical affections which so frequently arise from continued constigation. TO SEAFARING PEOPLE AND TRAVEL-

LERS GENERALLY. To individuals tragelling, more parlicularly seafaring persons; when from change of habit or citthe liver and bowels become inactive and costivenessfollows as an invariable result, these Lozenges, will prove invaluable. The proprietor offers them as a cure for nervous head ache and general nouralgie affections. Very remarkable cures nught be published if thought necessary.

Mr. Milhan, the agent in New York, writes "I think it no longer necessary to adverture to the extent, as heretofore; the Lezenges are now well known. I am delly receiving the most satisfactory accounts of them, and I shall always recommend bem to my customers? The very questionable reputation which a medi

cine derives from the fashionable practice of pub lishing a long list of certificates from persons whom nobody knows has induced the proprietor to forego the apportunity of offering to the public the many commendations, which he is daily becoming of these Lozenges, trusting rather to their own meriss, which will be appared to all on hind; and the espectability of his numerous agents. Ilæmorrhalds, or the Piles are occasioned by ha-pitual costiveness, plethers, hard rading on forseback and not unfrequently by the use of aloctic purgatives. The popular nostrum known as Vcg-ctable Pills, 'Universal Pills' and the like, are highly injurious when taken for a long time, being composed chiefly of aloes, which ought neverto be taken by persons subject to Piles. This complaint is not necessarily and of itself,

immediately dangerous; in fact, in some instances it may be considered as a salutary evacuation, esperially in plethorie or full blooded persons : . but when suffered to renain long, it is the cause of many serious and even hezardons diseases.

The remedy now offered to the public, is prepared by the undersigned, from the recipe of a highly eminent practitioner in a neighboring city and from the numerous cases absolutely cared by the use of it, he feels warranted in offering it as a specific.

It is put up in packages at fifty cents, with full direcitons for use, secompanies by a plain treatise on the disease. Prepared and for sale by, J. S. HARRISON, 256 Essex St. Salem.
